Precision in every panel.

Unitised curtain wall systems, aluminium windows and doors. Technical coordination, fabrication and export supply for façade contractors and builders worldwide.

Architectural visualisation. Not a completed project.

Zhejiang Zhongcheng Curtain Wall Decoration Co., Ltd. is a façade engineering and manufacturing company based in Hangzhou, China.

A manufacturing perspective.

Our primary offering is unitised curtain wall systems, complemented by glass and metal curtain walls, aluminium windows and doors, and aluminium-timber systems.

Manufacturing image supplied in the company profile.

800,000 m²

Annual curtain wall production capacity

400,000 m²

Annual window and door production capacity

From coordination to supply

Technical review · Design coordination · Production engineering
Fabrication · Quality assurance · Export delivery

Capacities are stated in the supplied company profile. Scope, programme, system suitability and project documentation are confirmed during review.

Window systems at a glance.

Summary of supplied sample information. Complete reports and system drawings are provided on request, subject to availability.

Epic 120 Series

Sample: 1800 × 1800 mm
U-value: 1.4 W/(m²·K); water penetration: 700 Pa

Epic 121 Series

Sample: 1800 × 1800 mm
U-value: 1.2 W/(m²·K); water penetration: 700 Pa

Timber-aluminium composite

Performance metrics and report not supplied.

DW75 Tilt & Turn

Sample: 1640 × 2250 × 75 mm
U-value: 1.5 W/(m²·K); water penetration: 700 Pa

DW75 Outward Casement

Sample: 1640 × 2250 × 75 mm
U-value: 1.5 W/(m²·K); water penetration: 700 Pa

DW80 Inward Casement

Sample: 1640 × 2250 × 80 mm
U-value: 1.5 W/(m²·K); water penetration: 700 Pa

Values apply to the stated samples only. They are not curtain wall performance claims or evidence of certification. Timber-aluminium performance information is missing from the source material.
